Email: ele_Apo@hotmail.com

Telephone: 357-96534333

Birthday: 22/06/1993

I am Eleni Apostolidou, I graduated as a Civil Engineer from the Frederick University of Cyprus. During my bachelor's degree, I took lectures about Waste Management, Environmental Impact Assessment, and Energy Design of Buildings. Further my interest in Environment and Energy led me to take a master's in Sustainable Energy Systems and complete a series of seminars in Energy Auditing.

Because life is about connecting dots, this is how my previous working experiences contributed to the person I am today. I worked in customer service for several years, this helped me to improve my communication skills, patience, and working under pressure, as well as being a team player. My working experience in Altamira Real Estate Company as a property valuer and a sales officer gave me knowledge about the real estate market in Cyprus and different sales techniques. Furthermore, I worked as an intern (Typhoon HIL, SERG Frederick University, Tartu Regional Energy Agency) to expand my expertise in Energy Field.

I think of myself as a creative and sensitive person, that loves exploring new places and ideas. During my free time I enjoy playing music, therefore I am a member of a philharmonic orchestra, reading books, and traveling, which makes me an easily adaptable person.

Education:

Degrees:

2018-2020 M.Sc. in Sustainable Energy Systems at Frederick University

Thesis: *Solar Power Tower as a Hybrid System*

2011-2016 B.Sc. in Civil Engineering at Frederick University

Thesis: *Comparative Study of the Seismic Behavior of a Steel Structure, Using Three Methods of Analysis Describes in Eurocode 8*

(Electives: Environmental Impact Assessment, Marine Engineering, Energy Design of Buildings, Water Resources Management) Junior Officer Position, Climate & Energy Action

2008-2011 Apostolos Markos, Archaggelos, Nicosia

(Major in: Mathematics, Physics, Computers, Architectural Plan)
